EDUCATION

NAMIK KEMAL UNIVERSITY Tekirdağ, Türkiye

B.Sc., Computer Engineering, 2028 (Expected) 2023-2028

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Systems

Computer engineering student with a strong interest in game development and web development. Experienced in building game projects and developing front-end websites with Next.js, React.js and modern web stack. Actively looking for a software development internship to apply technical skills and gain practical industry experience.

PROJECTS & EXPERIENCE

Hotan Games – Website Development (Intern) *Next.js, React.js, Tailwind CSS*

- Designed and developed the official website for Hotan Games.
- Built front-end structure and UI using React.js, Next.js, and modern web technologies.
- Continuously improved website layout, responsiveness, and user experience.

Autonomous Vehicle Project – Team Member *Python, C#*

- Actively participating as a developer in the university's autonomous vehicle development team.
- Working on software integration and control systems for autonomous operations.

Game Development Projects *Unity, C#*

- Developed game projects focusing on gameplay programming and game mechanics.
- Gained hands-on experience in Unity engine, gameplay design, and problem-solving.

TECHNICAL SKILLS

Programming Languages: Python, C#, TypeScript, JavaScript

Web Development: Next.js, NestJS, React.js, PostgreSQL, Tailwind CSS, HTML, CSS

Game Development: Unity, Gameplay programming, game mechanics, project development

ADDITIONAL INFORMATION

Languages: Turkish (Native), English (Intermediate)

Interests: Game Development, Web Development, Autonomous Systems, Technology
